

# Celebration time Low-carbon development shows what it offers

**LEEDS MP Hilary Benn** helped celebrate the first birthday of the city's low-carbon development Greenhouse.

He joined residents and guests to mark the occasion at the Eco-toberfest themed celebrations.

Over two days, members of the business and local community got the chance to have a look round the Beeston development by Citu.

A video showcasing Greenhouse's Green Champions was shown.

Greenhouse has 166 one, two and three-bed apartments, 13,000 sq ft of office space, a conferencing and events centre and an on-site Apart-Hotel.

Our picture shows guests being shown around.
